

Interim Staffing

Alford Group's interim staffing services help organizations maintain fundraising momentum and board engagement, maximize strategic impact and staffing resources, and conduct a thorough analysis of current development operations and future potential during the time it takes to identify, hire and onboard the ideal candidate. As a result, your organization and the new hire will be positioned for long-term success with clear recommendations designed to increase your philanthropic capacity, efficiency and results.

“As the CEO of a major institution, one of the biggest challenges is receiving word from a senior staff member that they are leaving the institution. It immediately became clear to me we needed interim staffing while we launched a national search. Alford Group provided an exceptionally experienced leader who partnered with the Hospital's senior leadership team and led the development staff. During her four-month tenure, we exceeded our fundraising goal; engaged our volunteers in new, meaningful ways; and secured \$1,750,000 in gifts and pledges towards a new initiative. I would highly recommend Alford Group for interim staffing. Sinai Health System benefitted in countless ways.”

Karen Teitelbaum, Former President & CEO, Sinai Health System
